Q: Have you ever wanted to *customize the calendar*?

Q: Manage *multiple resources* like employees or delivery vehicles?

Q: Clearly display appointments information like postal codes or ID/Status?

Then **Calendar View Plus add-on for ACT! (CVP)** is for you. CVP delivers those and many other benefits. Offering a familiar, *easy-to-use interface*, this tool deliver robust features and functionality you can't enjoy with ACT's native Calendar view.

**Calendar View Plus add-on for ACT!** is a must have for any power user.

## Easy To Use Calendar Add-ons

- See the schedules of multiple users, groups, employees, contacts or resources in a column format.
- Display any ACT! field from the contact directly on the calendar.
- Reschedule or reassign any activities in a single click or by simple dragging it onto another date.
- Print any field from the contact record, such as phone number, ID/Status, priority, resources, etc.
- See the names of all participants rather than "<Multiple Contacts>".
- Exclusive wrap-around feature allows you to see and print the full text of your details/notes field.

## Greater Convenience

- Have more ACT! contact management resource information at your fingertips.
- Specify exactly what you would like to see in your ACT calendar.
- Make all activity information viewable and printable.

## Increased Efficiency

- Filter calendaring data by any field.
- Reschedule and reassign activities in a single click.

## More Flexibility

- Personalize your ACT! Calendar interface using drag & drop filter panels.
- Personalize printing with larger fonts, additional fields like "cell phone," color coding, etc.
