- New Toolbar allows easier access to simple tasks.
- Filter Mode allows you to search in any field.
- Create Company based on the current contacts.
- Drag & Drop columns on and off the grid.
- Lookup Rules are now linked to specific layouts.
- Changes the property on any column like the caption.
- Contact List Plus appends to ACT!'s right-click menu.
- Outlook Card Style View is now supported in the list.
- Group contacts in cross sections or group lists.
- Sum, Count or Total values in a column.
- Save/Restore the contact list.
- You can tag and un-tag contacts to create a manual lookup.
- Contact List Plus has **in-line editing** "built-in".
- Add additional column layouts to simplify your views.
- Add color to any contact in the list.
- CLP replaces the existing native contact list view.
- **Turn on/off lookups** with a quick click of the mouse.
- Add color to your list with simple rules.

Contact List Plus bring to ACT!'s contact list: editing, colorization, calculations, organization, grouping, exporting, column formatting and design in the contact list view.

"I have found CLP to be one of the most innovative ACT Add Ons available. CLP is without doubt the biggest productivity enhancer on the market today."
Jon Klubnik ACC, APT www.ActTrainer.com
