

The Lookup Manager for ACT! by Sage

The Lookup Manager will save you time!

- Adds a **new previous** menu under 'Lookup'
- Displays **previous contacts, companies and groups.**
- Find and organize **favorite contacts.**
- Remembers your last contact **on startup.**

[Click for more information](#)

- Adds a new sub-menu in the LOOKUP menu that displays the last 20 contacts, groups or companies.
- Remembers up to 1000 previous lookups in a scrollable list accessed using "ALT+F1".
- Remembers the last contact you were on and takes you back to that contact on ACT! startup.
- Set a preference to always open on a view like 'Contact List view' or the 'Opportunities view'.
- Easily add the current lookup to the list with a simple "Save" button
- You can place your lookup in a 'favorites' tab to easily go back at any time.
- Turn on/off 'Saved' lookups/queries with a quick click of the mouse.
- Simply double-click to edit any saved queries

If you are constantly going back and forth between contacts, groups and companies **The Lookup Manager will save you time!** Also resets last **contact**, last **view** and last selected **tab** on startup.

"Thanks to Durkin Computing, ACT 2006 finally has quick common sense lookup features!"
